Purulia, West Bengal, India

Ambitious Software Developer with a strong foundation in OOPs, Java, C, Python, and C#. Currently expanding knowledge in AI . Seeking a challenging role to apply these skills and contribute to innovative software solutions.

Projects

Eduweb an online learning platform

Jan 2023 - Jul 2023

BCA final year project, worked as Back-end developer, developed a full working responsive website.

Machine Learning Intern – Cognifyz Technologies (Remote)

Aug 2024 - Sep 2024

- *Developed a multi-label classification model for predicting,
- *Restaurant cuisines based on locality,
- *Built a restaurant recommendation system,
- *Gained experience in handling real-world datasets, model evaluation, optimizing model performance,
- *Perform geographical analysis of data, visualizing on map, average_ratings, price_ranges,

Core Skills

C, JAVA, PYTHON, Devops, AI, Machine Learning Algorithms, Logistic Regression, Data Preparation, Feature Engineering, Model Evolution, Statistics, NumPy, Pandas, Matplotlib, scikit-learn, Model Deployment, YOLO, Image Classification, git, TensorFlow

Education

AMPICS Ganpat University

Jan 2023 - Aug 2025

MASTERS Computer Application | CGPA 7.15

Raghunathpur College

Jan 2020 - Dec 2023

BACHELORS Computer Application | CGPA 8.65

Languages

English (*Fluent*), **Bengali** (*Native*), **Hindi** (*Fluent*)

Certificates

Introduction to Deep Learning

Great Learning Academy

Introduction to Artificial Intelligence

Great Learning Academy

Python for Machine Learning
